

Survival Series 2023

Date: Wednesday, November 15, 2023

Time: 6:00 pm—7:00 pm

Place: Zoom

AI in Healthcare

Learning Objectives:

We know that the digital landscape of healthcare is changing rapidly - with tools such as ChatGPT, the use of chatbots in telemedicine, early detection and diagnosis technology, and countless other innovations, your practice can adapt and grow by utilizing some of these new tools, and staying informed of their applications.

Some of the topics that will be covered include:

Introduction to AI concepts

- AI use cases in healthcare
- Benefits of AI in healthcare (e.g. Dragon Ambient Experience time savings)
- Building AI models vs consuming AI capabilities in software
- Q&A

PRESENTER:

Akhil Bhargava, Field CTO for Advizex

Akhil is a Senior Leader with over 30 years of experience conceptualizing, architecting, implementing, building and leading successful solutions focused on providing customer, complex technical implementations, and complex solution architectures. Akhil has architected, deployed real time embedded and application software and system products on different environments (private, public clouds and Colo) for Finance, Energy, Healthcare, Retail, Telecom, Cable, Semiconductor, Robotics and the Computer industry. Akhil was co-founder of Medxforms, implementing healthcare automation system for nursing homes, and key member for development of Internet Explorer 1.0. Currently he is the Field CTO at Advizex heading the AI/ML Practice and providing solutions to customers using their data.
